- Team oriented; work with others to build effective relationships in a cohesive environment completing a common objective.
- Demonstrates communication, problem-solving, and organization skills with the ability to successfully manage multiple priorities in a dynamic environment.
- Ability to make sound decisions using independent judgment to complete job tasks while relying on company policies.
- Troubleshooting skills/logical problem-solving skills.

## Responsibilities:

- Maintenance: Perform routine maintenance on vehicles and machinery, including oil changes, tire rotations, and brake inspections.
- Troubleshooting: Identify and troubleshoot mechanical problems using diagnostic tools and equipment.
- Diagnose and Repair: Inspect, diagnose, and repair mechanical, hydraulic, gas powered and pneumatic equipment.
- Safety Compliance: Adhere to safety protocols and maintain a clean and organized work environment.
- Documentation: Keep accurate records of all maintenance and repair work performed. Perform DOT inspections and maintain records.
- Maintain tools and equipment to ensure all are in proper and safe working order.
- Contribute to maintaining a clean and organized work area.
- Assist field techs as needed.

**Experience and Education:**

- High School diploma or GED. Technical or vocational training is a plus.
- Valid State Issued Driver's License and good driving record.
- Ability to pass a drug test and background check.
- Previous experience as a mechanic or in a related field.
- Physical Demands: Requires standing, bending, and lifting heavy objects.
- Previous maintenance experience with equipment such as excavators and skid steers is a plus.

**Benefits:**

- Hourly Pay with Overtime after 40 hours.
- Paid Time Off
- Health Insurance (company paid premiums)
- Optional Dental and Vision Insurance
- Optional Life Insurance
- Optional Disability insurance
- 401K with company contribution
